Presence of Allergen : **YES- 'Contains Allergen'** **MAYBE- 'May Contain Allergen'**

Composite - 'Allergen information is given for complete menu item and not for an individual ingredient'

An average active adult requires 2,000 kcal energy per day, however, calorie needs may vary

(i) - Cereals containing gluten; i.e., wheat, rye, barley, oats, spelt or their hybridized strains and products of these
(vi) - Peanuts, tree nuts (e.g. almonds, walnuts, pistachio, cashew nuts) and their products;

Disclaimer: This nutrition information is derived from tests conducted at accredited laboratories; published resources; and/or information provided by McDonald's suppliers. It is based on standard product formulations; serve sizes; and average values derived from ingredients supplied by McDonald's vendors. Variation in serve sizes; preparation techniques; product testing method; and sources of supply, including regional, seasonal changes, geographical, weather and ambient conditions, may impact nutritional value of the menu items. In addition, product formulation do change periodically due to various external factors, including those stipulated above. One should expect some variation in the nutritional content and serve size of products purchased at our restaurant. The data here is only indicative and approximate. Some of this nutritional data and serve size of these products are required to be disclosed under law or regulation; and further/additional information may also be displayed; however, all have been provided with the intent to help customers make informed choices at McDonald's. The data here is subject to change at any time without prior notice.

TIPS FOR A HEALTHY LIVING

1. Base your meals on higher fibre starchy carbohydrates
Starchy carbohydrates should make up just over a third of the food you eat. They include potatoes, bread, rice, pasta and cereals.
Choose higher fibre or wholegrain varieties, such as wholewheat pasta, brown rice or potatoes with their skins on.

2. Eat lots of fruit and veg
It's recommended that you eat at least 5 portions of a variety of fruit and veg every day. They can be fresh, frozen, canned, dried or juiced.

3. Eat less salt: no more than 6g a day for adults
Eating too much salt can raise your blood pressure. People with high blood pressure are more likely to develop heart disease or have a stroke.
Even if you do not add salt to your food, you may still be eating too much.

4. Do not skip breakfast
Some people skip breakfast because they think it'll help them lose weight.
But a healthy breakfast high in fibre and low in fat, sugar and salt can form part of a balanced diet, and can help you get the nutrients you need for good health.

An average active adult requires 2,000 kcal energy per day, however, calorie needs may vary

RDA 'Recommended Dietary Allowance'	Energy (kCal)	"Total fat (g)"	Sat Fat (g)	Trans fat (g)	Added Sugars (g)	"Sodium (mg)"
	2000	67	22	2	50	2000

Coca Cola and Their Floats CONTAINS CAFFEINE.

Coke Zero CONTAINS CAFFEINE. CONTAIN NON-CALORIC SWEETENER. THIS CARBONATED WATER CONTAINS AN ADMIXTURE OF SUCRALOSE AND ACESULFAME POTASSIUM. NOT RECOMMENDED FOR CHILDREN; PREGNANT AND LACTATING MOTHERS"

TIPS FOR A HEALTHY LIVING

1. Base your meals on higher fibre starchy carbohydrates
Starchy carbohydrates should make up just over a third of the food you eat. They include potatoes, bread, rice, pasta and cereals.
Choose higher fibre or wholegrain varieties, such as wholewheat pasta, brown rice or potatoes with their skins on.

2. Eat lots of fruit and veg

It's recommended that you eat at least 5 portions of a variety of fruit and veg every day. They can be fresh, frozen, canned, dried or juiced.

3. Eat less salt: no more than 6g a day for adults
Eating too much salt can raise your blood pressure. People with high blood pressure are more likely to develop heart disease or have a stroke.
Even if you do not add salt to your food, you may still be eating too much.

4. Do not skip breakfast
Some people skip breakfast because they think it'll help them lose weight.
But a healthy breakfast high in fibre and low in fat, sugar and salt can form part of a balanced diet, and can help you get the nutrients you need for good health.
